Who am I?

Pleased to meet you

- Software Engineer @ Wix

- Working as part of the infrastructure team, providing in-house solutions for Wix developers (frameworks, libraries, improving developer experience, etc.)

- Previously, had written JavaScript (Node.js) for more than 8 years

- Then I met Rust, learned compiler theory and moved away from JavaScript to TypeScript at work and continue writing Rust code as a hobby

- Not mentioning my interests in virtual machines, operating systems, compilers, etc.
